huperLab®

IP Camera Support List

1. The camera status, marked as "◎ ," shows that this camera is integrated and tested by huperLab.
2. *The supported firmware indicates the version that huperLab integrated and tested. Any camera firmware upgrade may require extra integration or changes in huperLab surveillance software.
3. Some camera models may share the same API with the following supported cameras. We **STRONGLY recommend a complete test in cameras and software before camera deployment.**

Note:
1. The camera status, marked as "◎," shows that this camera is integrated and tested by huperLab.
2. Feature status: "O" = supported, "X" = not supported, "N/A" = feature is not available.
huperLab is continuously integrating and updating IP camera models and therefore reserves the right to alter the support list without prior notice
